

SUNREEF 62

Sunnyacht

To experience magical moments...

This nearly 19-meter long sailing catamaran yacht is an iconic model from the first in the world to launch a catamaran with a flybridge. Its reputation as comfortable, sturdy, and reliable catamarans is recognised worldwide.

Launched from the shipyard at the end of 2008, after more than twenty has benefited from all the advancements and innovations of the 62' model. unit is one of the most successful and well-equipped in the 62' series!

Its exceptional flybridge, where all navigation systems are centralised, and offers a 360° sunbathing and socialising area. The impressive spaces platform allow for the enjoyment of all the water sports equipment

Captivated by its quality features such as the teak deck, flush portholes, and the timeless elegance of the interior salon, the new owners have chosen this catamaran in order to offer a friendly and luxurious travel experience. Particularly committed to this project, they carried out a complete refit in 2022 and 2023, tailoring additional facilities such as the enlargement of the steering station roof with a custom enlarged bimini top, incorporating secured windshields, installing solar panels and a second watermaker, etc...

You will be delighted to explore exceptional places, discover deserted coves, and above all, experience magical moments on SUNNYACHT.

Onboard, you will find a friendly and refined atmosphere, with maximum comfort for each guest during your stay.

You will benefit from a variety of water sports equipment.

During your relaxing evenings with family or friends, you can enjoy a TV area, a high-end sound system, a wine cellar, etc.

manufacturer SUNREEF, the a builder of luxurious,

units produced, this vessel According to SUNREEF, this

Technical characteristics

SUNNYACHT is a sailing catamaran built in Gdansk, Poland, by the shipyard SUNREEF. It measures 18.90 meters in length and 9.20 meters in width, with a draft of 1.55 meters.

It was launched in December 2008 and is equipped for offshore and MCA (Maritime and Coastguard Agency) use.

Its sails and rigging include a carbon mast without spreaders and a carbon canoe boom.

The sails are made of Hydranet fabric: a 118m² mainsail, a 63m² genoa, a 32m² solent, and a 120m² gennaker on a furler.

SUNNYACHT is powered by 2 inboard engines (2 x 110hp) with a total fuel capacity of 1800L and features 2 bow thrusters.

Its electronic equipment includes a Raymarine navigation system, chartplotter, speed log, depth sounder, radar, GPS, AIS, autopilot, VHF, BLU, and Navtex.

Onboard equipment includes :

A 17 kW generator,

6 solar panels with a total capacity of 1600 W,

2 water desalinators (1 SEARECOVERY 220L/hour and 1 AQUABASE 105L/hour) with a water tank capacity of 800L,

6 LED underwater lights,

automatic life jackets,

and a 4.20m long dinghy with a 50hp engine, essential for reaching the shore and exploring the surroundings on land.

For water activities, SUNNYACHT offers:

1 two-seater kayak,

2 stand-up paddles,

2 windsurfers,

Towed buoy,

Wakeboard and water skiing equipment,

Snorkeling gear for exploring underwater with mask/snorkel/fins,

Fishing equipment.

Indoor comfort

Spacious and filled with daylight, the main living area features clearly defined spaces: a lounge area, a dining table for 8 guests, an open kitchen, and a navigation table.

The quality of materials and natural light creates a cozy, elegant, and luxurious ambiance. In the evening, ambient lighting provides a peaceful glow.

All windows are equipped with electric blackout blinds.

Interior equipment includes:

Air conditioning in each cabin and in the main living area

1 dishwasher

2 ovens (1 traditional oven and 1 two-in-one microwave/grill)

Coffee machine

Wine cellar (24 bottles)

1 refrigerator, 2 freezers

1 Ice-maker

1 washing machine

Computer and colour printer

4G Wifi

Satellite antenna for TV

A 40-inch flat-screen TV in the main living area

High-end "multisource-multiroom" audio-video system

Each cabin is equipped with a TV, a DVD player, and a Chromecast

Additionally, there is an outdoor barbecue

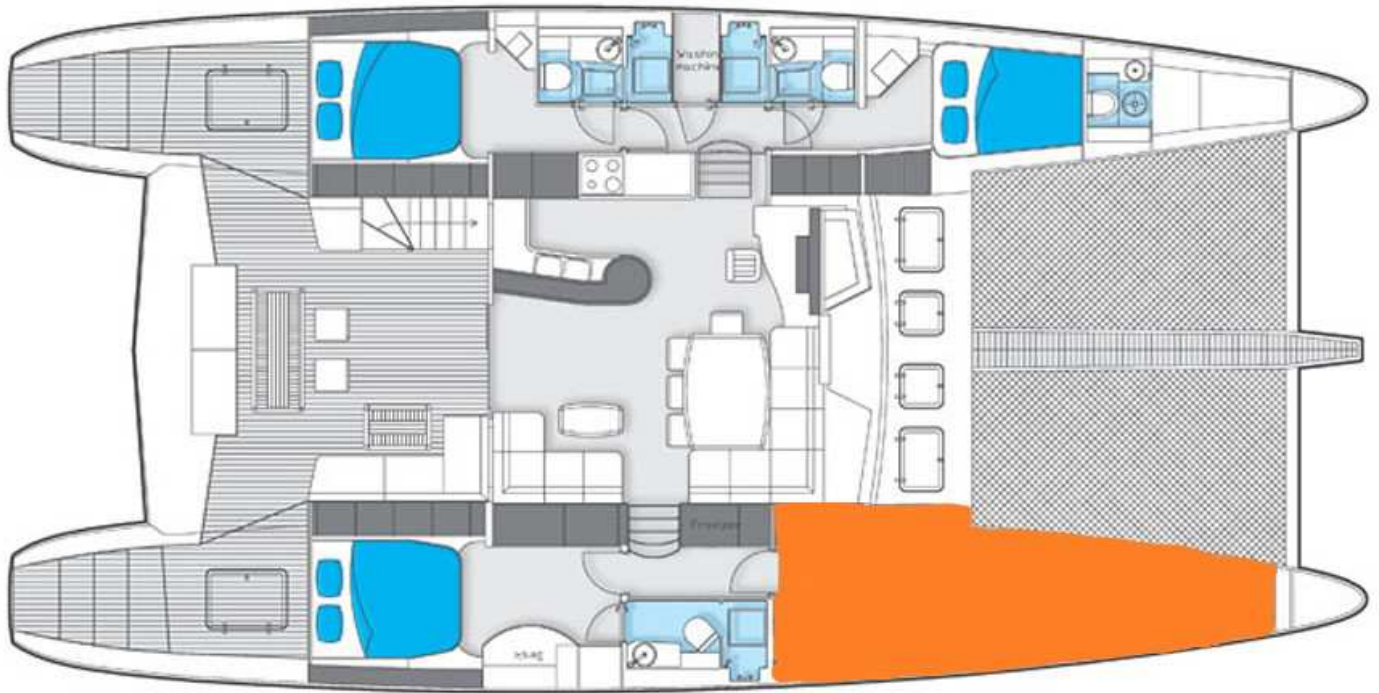

Sunnyacht accommodates comfortably 6 guests

1 master cabin with a 160 x 200cm bed, plus a desk space

1 double cabin with a 160 x 200cm bed

1 double cabin with a 140 x 200cm bed

Each cabin has a private bathroom with a shower, sink, and electric freshwater toilet.

Outdoor comfort

SUNNYACHT's entire deck is covered in teak, and the deck panels are flush. You can enjoy its numerous spaces:

On the cockpit, a covered terrace extending from the main living area: teak table, director's chairs, benches, and two large loungers on each side.

At the front, trampolines equipped with custom cushions for maximum comfort during relaxation and sunbathing.

On the flybridge, a teak table, benches, and sunbed cushions to enjoy a 360° view.

Its varied spaces, whether intimate or more expansive, encourage moments of relaxation or socialising with family or friends, whether to savour a cocktail together or to share a delicious musical dinner.

The crew

The couple, who are not only partners at work but also at home, have successfully raised three children while managing a medium-sized business for over 20 years.

They have many years of experience in hosting and entertaining both professional and friendly relations into their home, and in organising special events that leave a lasting impression on their guests.

In 2017, when their children left the family nest, they decided to change direction, combining their passions and expertise to serve a demanding clientele. Their goal is to provide a unique experience in magnificent settings aboard a luxurious and comfortable catamaran.

The Captain:

Bruno Georges, the captain, grew up living by the sea. He started competitive water sports in his adolescence, including windsurfing, regattas on a 420 dinghy, and some Cross-Channel crossings on sailboats to England and Ireland. After a supercharged family and professional life, he continued his passion for sailing, this time on a multihull, to embark on new adventures with his wife. Since 2016, they have been regularly sailing as qualified skipper and crew, as part of boat delivery crews, and in transatlantic crossings. They have obtained the necessary certifications for their new chartering activity.

In addition to his sailing achievements, the captain has a solid background in mechanical engineering and is proficient in all onboard electronic instruments. This allows him to combine efficient navigation with safety while catering to the wishes and desires of the guests.

The Chef/Hostess:

Nathalie, the chef/hostess, inherited a family tradition centered around "a love of entertaining around a good table". She started baking pastry in her adolescence and then expanded to cooking. From traditional Norman dishes to exploring fragrant and aromatic French and Italian Mediterranean cuisine, Nathalie prepares her dishes based on fresh seasonal products and the tastes and preferences of her guests. Her travels and constant culinary curiosity enable her to offer recipes inspired by Oriental and Asian cuisine.

Extremely organised, energetic, and positive, Nathalie takes care of the general maintenance on board, the provisioning, and the preparation of meals. With an agile and creative spirit, she adapts to each situation and guest in order to optimise individual well-being and maintain a friendly atmosphere throughout the stay.
