OVERVIEW

The Pearlsea 56 Coupe is a true masterpiece of modern boatbuilding, combining cutting-edge design with the latest technological advancements. Built with epoxy resins and fiberglass using vacuum infusion technology, this method ensures exceptional structural rigidity, superior resistance to maritime conditions, and an eco-friendly production process. The risk of osmosis is significantly reduced, guaranteeing durability and a vessel that maintains its quality over time. This sport cruiser is powered by Volvo Penta IPS 600 engines, each delivering 435 HP, offering impressive performance and efficiency.

Inside, the Pearlsea 56 Coupe offers three spacious cabins, including an elegant owner's cabin, a guest cabin, and an underfloor cabin, providing a comfortable stay for multi-day trips. The spacious salon is designed for relaxation and socializing, featuring a stylish interior with an inside and outside steering position for flexibility in navigation.

The fully equipped kitchen includes everything you need for a perfect trip: a glass ceramic cooktop, electric hob, refrigerator, second refrigerator, freezer, and sink—perfect for preparing meals while enjoying the sea breeze. The bathroom features an electric toilet and a holding tank, ensuring comfort for all guests on board.
